

## #18: Patrick First SCI Quadriplegic to be inducted into BONNEVILLE 200 MPH CLUB

Aug. 1999: Patrick became the first SCI Quadriplegic to be inducted into the Bonneville 200 MPH club.

## World Land Speed Record with an Electric Car

One of Patrick's most common advice is "Buckle Up!"

And buckle up he did, in 1999, when he set the World Speed Record for an all-electric vehicle.

Dempsey's World Record Associates owns their record-holding White Lightning, the world's fastest all - electric race car.

Rummerfield set two USA Land Speed Records for an electric car: at 239.5 miles per hour and 251.6 miles per hour, achieved at Speed Week, held at the Bonneville Salt Flats Testing Course, Utah by the Southern California Timing Association.
